Safety Data Sheet according to HPR, Schedule 1

Printing date 11/17/2022 Reviewed on 11/17/2022 1 Identification · Product identifier Trade name: Flexitime Xtreme 2 Correct Flow Cat · Application of the substance / the mixture Dental impression material · Details of the supplier of the safety data sheet Manufacturer/Supplier: Kulzer GmbH Tel.: +49 (0)800 4372522 Leipziger Straße 2, 63450 Hanau (Germany) · Information department: Tel. +1 (800) 431-1785 Fax: +1 (800) 522-1545 e-mail: customer.servicehkna@kulzer-dental.com Emergency telephone number: Emergency CONTACT (24-Hour-Number) ID 105860: (domestic) 1 800 535 5053 or international (001) 352 323 3500 2 Hazard identification Classification of the substance or mixture Carcinogenicity - Category 1A H350 May cause cancer. Reproductive Toxicity - Category 2 H361 Suspected of damaging fertility or the unborn child. Specific Target Organ Toxicity - Repeated H372 Causes damage to the lung through Exposure - Category 1 prolonged or repeated exposure. Route of exposure: Inhalation. · Label elements GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS). Hazard pictograms GHS08 · Signal word Danger · Hazard-determining components of labeling: Cristobalite octamethylcyclotetrasiloxane · Hazard statements May cause cancer. Suspected of damaging fertility or the unborn child. Causes damage to the lung through prolonged or repeated exposure. Route of exposure: Inhalation. · Precautionary statements Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe dust/fume/gas/mist/vapours/spray. Wash thoroughly after handling. Do not eat, drink or smoke when using this product. Wear protective gloves/protective clothing/eye protection/face protection. IF exposed or concerned: Get medical advice/attention. Get medical advice/attention if you feel unwell. (Contd. on page 2)

#### 4 First-aid measures

· Description of first aid measures

· After inhalation Supply fresh air; consult doctor in case of complaints.

After skin contact If skin irritation continues, consult a doctor.

- After eye contact
- Rinse opened eye for several minutes under running water. Then consult a doctor.
- After swallowing
- Rinse out mouth and then drink plenty of water.
- If symptoms persist consult doctor.
- Information for doctor
  - Most important symptoms and effects, both acute and delayed
  - No further relevant information available.

#### 5 Fire-fighting measures

- Extinguishing media
  - Suitable extinguishing agents

CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- Use fire fighting measures that suit the environment.
- Special hazards arising from the substance or mixture
- *Formation of toxic gases is possible during heating or in case of fire. Advice for firefighters* 
  - Protective equipment: Mount respiratory protective device.
- Additional information -

#### 6 Accidental release measures

- Personal precautions, protective equipment and emergency procedures Ensure adequate ventilation
- Avoid contact with eyes and skin.
- Environmental precautions: Prevent seepage into sewage system, workpits and cellars.
- Methods and material for containment and cleaning up:
- Absorb with liquid binding material (diatomite, universal binders, for small amounts tissues).

Reference to other sections

No dangerous substances are released.

- See Section 7 for information on safe handling
- See Section 8 for information on personal protection equipment.
- See Section 13 for disposal information.

#### 7 Handling and storage

- · Handling
  - · Precautions for safe handling
  - Keep receptacles tightly sealed.
  - Ensure good ventilation/exhaustion at the workplace.
  - · Information about protection against explosions and fires: No special measures required.
- · Conditions for safe storage, including any incompatibilities
  - · Storage
    - · Requirements to be met by storerooms and receptacles: No special requirements.
    - · Information about storage in one common storage facility: Not required.
  - Further information about storage conditions: None.
- Specific end use(s) No further relevant information available.

8 Exposure controls/ Personal protection

• Additional information about design of technical systems: No further data; see item 7.

Κ

· Additional toxicological information: Harmful

Carcinogenic categories

#### IARC (International Agency for Research on Cancer)

Silicosis: Excessive inhalation of respirable crystalline silica dust may cause a progressive, disabling and sometimes fatal lung disease called silicosis. Symptoms include cough, shortness of breath, wheezing, non-specific chest illness and reduced pulmonary function. This disease is exacerbated by smoking. Individuals with silicosis are predisposed to develop mycobacterial infections (tuberculous and non-tuberculous) and fungal infections. Inhalation of air with a very high concentration of respirable silica dust can cause the most serious forms of silicosis in a matter of months or a few years. Some epidemiologic studies have concluded that there is significant risk of developing silicosis even at

airborne exposure levels that are equal to the recommended NIOSH REL, the ACGIH TLV.

Cancer Status: The International Agency for Research on Cancer has determined that crystalline silica inhaled in the form of quartz or cristobalite from occupational sources is carcinogenic to humans (Group 1 - carcinogenic to humans). Refer to IARC Monograph 100C, A Review of Human Carcinogens: Arsenic, Fibres and Dusts (published in 2011) in conjunction with the use of these materials. The National Toxicology Program (NTP) classifies respirable crystalline silica as "known to be a human carcinogen". Refer to the Twelth Report on Carcinogens (2011). The American Conference of Governmental Industrial Hygienists (ACGIH) classifies crystalline silica, quartz, as a suspected human carcinogen (A2).

#### 13 Disposal considerations

#### · Waste treatment methods

#### · Recommendation

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

Disposal must be made according to official regulations.

#### Uncleaned packagings:

Recommendation:

Disposal must be made according to official regulations.

Non contaminated packagings can be used for recycling.
